*This exciting drawing camp* is taught by professional illustrator Robyn Kline, owner of Kids Creative Adventures. Have a great time sharpening your fine motor skills while learning the basics of drawing, color and design. The first part of the class we will draw popular themes together such as *Dog Man, The Wild Robot, Pokemon, etc.* Each session has different themes. The second part of our morning students will create their own character trading cards. Each class will concentrate on character introduction, story lines, covers and lettering. Students will work at an independent pace to create their own comic book or graphic novel.
